

FOR IMMEDIATE RELEASE:

MCFA, LLC Awarded Major National Energy Management Contract by U.S. Army Valued at up to \$40M; Opens New Offices

M.C. Fuhrman and Associates, LLC (MCFA) has been awarded a multi-year IDIQ contract through the U.S. Army Corps of Engineers – Huntsville District to provide Resource Efficiency Managers (REM's) at Army installations nationwide. The total estimated value for this procurement is \$40 million in program capacity over a period of 5 years, and will focus on energy savings, energy demand reduction, and renewable energy solutions. The firm also announced an expansion of services into three major U.S. markets and additional new office locations. The offices are located in San Mateo, CA; Pittsburgh, PA; and Havre de Grace, MD and will support expanded MCFA business operations nationwide including the MCFA headquarters office in Haddonfield, NJ.

Haddonfield, NJ. July 7, 2009 -- **M.C. Fuhrman and Associates, LLC (MCFA)** has been awarded a multi-year Indefinite Delivery/Indefinite Quantity (IDIQ) contract through the U.S. Army Corps of Engineers – Huntsville District Engineering and Support Center to provide Resource Efficiency Managers (REMs) at Army installations nationwide. The total estimated value for this procurement is \$40 million in program capacity over a period of 5 years, and will focus on energy savings, energy demand reduction, and renewable energy solutions.

MCFA, as Prime Contractor, will assist the Army in the development and implementation of renewable energy projects, LEED certified projects, and alternative fuel utilization projects, and support the Army's Energy Management program at the U.S. Army Engineering and Support Center, Huntsville, and U.S. Army Installation Management Command (IMCOM) to reduce overall utility costs. MCFA's team also includes experts from **ICF International** (Fairfax, VA), **Magnolia River Services, Inc.** (Hartselle, AL), and **EBL Engineers, LLC** (Baltimore, MD).

The company also announced the opening of three new office locations nationwide to expand MCFA's service offerings to government and corporate clients. The new office locations include:

California

300 West Poplar Avenue
San Mateo, CA 94402

Pennsylvania

503 Martindale Street
Sixth Floor
Pittsburgh, PA 15212

National Capital Region (MD/DC/VA)

203 Market Street, Suite 202
Havre de Grace, MD 21078

MCFA Owner and Managing Director Rebecca Fuhrman remarked, "MCFA and our teaming partners are very excited about the opportunity to continue to serve the Army by maximizing energy savings and developing renewable energy projects. The REM contract will allow MCFA to replicate the outstanding successes we have had for the U.S. Army at Aberdeen Proving Ground, MD and Fort Bliss, TX, including further implementation of the unique Building Operations and Control Center (BOCC) prototype we developed for the Army. This contract, and the opening of our three additional offices, will give MCFA an opportunity to staff quality personnel at installations across the country to help them reach their goals and requirements under new energy legislation, and ensure that the Army leads the way in energy management and sustainability. The new offices will also help us to expand our portfolio of services to our existing government and Department of Defense clients nationwide, and to respond with a local presence to the increased national demand for MCFA's multi-disciplined services."
